

iMed Meaningful Use Program

Meaningful Use Pricing Disclosure

iMed Software Corp. requires a one time project start up fee that is based on the number of providers serviced. This start up fee covers installation, configuration, customization, project management, third party vendor over-sight, and comprehensive staff training.

After startup, iMed Software Corp. offers a monthly subscription fee per provider that covers software usage & licensing, 24x7 support for critical system issues and business hours support for all other non-critical issues, continued customization and configuration, workflow analysis and recommendations, assistance and guidance for industry compliance programs, and all integrations with 3rd party systems such as billing software, labs, hospitals, etc.

The monthly subscription fee is all-inclusive and no additional fees for third party software are necessary to achieve meaningful use through iMed EMR.

Optional Additional Fees

3rd Party Services

Direct Messaging Address - Additional fees apply to register and maintain a Direct Message address through our provider, EMR Direct. These fees consist of one-time setup and annual maintenance.

Quality Reporting Programs

Data Export Fees may apply for quality reporting programs such as: ACOs, PQRS, Quality Blue (BCBS), etc.
